Dear Ron Sarchian:

Ron

It is my distinct honor to extend best wishes on your attempt to break the Guinness Book of World Records for punching a heavybag and for bringing recognition to the Lance Armstrong Foundation.

The work of the Lance Armstrong Foundation is critical in helping those afflicted with cancer and dealing with the every day problems that arise for them and their families. I think everyone of us knows someone who has had to battle this terrible disease. Your dedication to bringing recognition to this organization and helping to raise funds so that LAF can continue to enhance the quality of life for those living with, through and beyond cancer is admirable and extremely important.

I wish you good luck in breaking the Guinness Book of World Records and I hope that through your efforts and those of the Lance Armstrong Foundation the road to recovery will be easier for all those battling cancer.

Sincerely,

Dennis P. Zine
